Consort Delta 105

Consort Delta 105

A further development in data management...

One of the family of cable management solutions from MITA.

Consort Delta 105, with dimensions of 100 x 50mm is a single compartment pvc trunking system with a stylish profile. Delta 105 has been designed for use in power and high-density CAT5e and CAT6 structured cabling solutions.

Delta 105 has a contemporary look and the trunking features adjustable bends and a multi-configurable tee.

- 100 x 50mm single compartment trunking, which can be readily divided to form a 3 compartment trunking
- Adjustable bends allow movement of $\pm 5^\circ$ and multi-configurable tees allow for a 50mm bend radius to be maintained
- Clip on fittings
- Meets and exceeds the requirements for ANSI/TIA/EIA568B, TIA569B, ISO/IEC11801 and Cenelec (EN50174-2 / EN50173) standards
- Accepts socket mounting boxes up to 35mm deep
- Steel divider where screening is required
- Accepts all leading wiring accessories

Suitable for CAT5e and CAT6

Adjustable Bends

Delta 105 adjustable bends allow movement of plus or minus 5° .

Delta 105 bends meet and exceed the requirements for ANSI/TIA/EIA568B, TIA569B, ISO/IEC11801 and Cenelec (EN50174-2 / EN50173), enabling a 50mm bend radius to be maintained.

Multi-Configurable Tee

Innovative tee bridge inserts make cable routing easy and extremely flexible whilst maintaining minimum bend radius and data/power cable separation.

Ease of Installation

Flat angles ensure cables follow correct bend radius.

Innovative solutions in cable management

Cableline Prima 60

Stylish and functional - the latest development from a family of cable management solutions from MITA.

Consort Delta 105

A further development in data management - one of the family of cable management solutions from MITA.

Cableline Ultra 60

Designed to support and maintain the integrity of your data solution.

Will support CAT6, shielded and 10Gig solutions.
